The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 10/574,143	<b>Applicant(s)</b> PENNA ET AL.	
	<b>Examiner</b> Jean B. Corrielus	<b>Art Unit</b> 2611	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 29 March 2006.
- 2a) ☐ This action is **FINAL**.                      2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**Disposition of Claims**

- 4) ☒ Claim(s) 1-44 is/are pending in the application.
- 4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.
- 5) ☐ Claim(s) \_\_\_\_\_ is/are allowed.
- 6) ☒ Claim(s) 1-44 is/are rejected.
- 7) ☐ Claim(s) \_\_\_\_\_ is/are objected to.
- 8) ☐ Claim(s) \_\_\_\_\_ are subject to restriction and/or election requirement.

**Application Papers**

- 9) ☒ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 29 March 2006 is/are: a) ☐ accepted or b) ☒ objected to by the Examiner.  
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

**Priority under 35 U.S.C. § 119**

## DETAILED ACTION

### *Priority*

1. It is noted that this application appears to claim subject matter disclosed in prior Application PCT/IB2004/051944, filed 10/01/2004. A reference to the prior application must be inserted as the first sentence(s) of the specification of this application or in an application data sheet (37 CFR 1.76), if applicant intends to rely on the filing date of the prior application under 35 U.S.C. 119(e), 120, 121, or 365(c). See 37 CFR 1.78(a). For benefit claims under 35 U.S.C. 120, 121, or 365(c), the reference must include the relationship (i.e., continuation, divisional, or continuation-in-part) of all nonprovisional applications. If the application is a utility or plant application filed under 35 U.S.C. 111(a) on or after November 29, 2000, the specific reference to the prior application must be submitted during the pendency of the application and within the later of four months from the actual filing date of the application or sixteen months from the filing date of the prior application. **If the application is a utility or plant application which entered the national stage from an international application filed on or after November 29, 2000, after compliance with 35 U.S.C. 371, the specific reference must be submitted during the pendency of the application and within the later of four months from the date on which the national stage commenced under 35 U.S.C. 371(b) or (f) or sixteen months from the filing date of the prior application.** See 37 CFR 1.78(a)(2)(ii) and (a)(5)(ii). This time period is not extendable and a failure to submit the reference required by 35 U.S.C. 119(e) and/or 120, where applicable, within this time period is considered a waiver of any benefit of such prior application(s)

Art Unit: 2611

under 35 U.S.C. 119(e), 120, 121 and 365(c). A benefit claim filed after the required time period may be accepted if it is accompanied by a grantable petition to accept an unintentionally delayed benefit claim under 35 U.S.C. 119(e), 120, 121 and 365(c). The petition must be accompanied by (1) the reference required by 35 U.S.C. 120 or 119(e) and 37 CFR 1.78(a)(2) or (a)(5) to the prior application (unless previously submitted), (2) a surcharge under 37 CFR 1.17(t), and (3) a statement that the entire delay between the date the claim was due under 37 CFR 1.78(a)(2) or (a)(5) and the date the claim was filed was unintentional. The Director may require additional information where there is a question whether the delay was unintentional. The petition should be addressed to: Mail Stop Petition, Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450.

If the reference to the prior application was previously submitted within the time period set forth in 37 CFR 1.78(a), but not in the first sentence(s) of the specification or an application data sheet (ADS) as required by 37 CFR 1.78(a) (e.g., if the reference was submitted in an oath or declaration or the application transmittal letter), and the information concerning the benefit claim was recognized by the Office as shown by its inclusion on the first filing receipt, the petition under 37 CFR 1.78(a) and the surcharge under 37 CFR 1.17(t) are not required. Applicant is still required to submit the reference in compliance with 37 CFR 1.78(a) by filing an amendment to the first sentence(s) of the specification or an ADS. See MPEP § 201.11.

***Drawings***

2. The drawings are objected to because it fail to properly identify each drawing sheet as required by 37 CFR 1.84(c), reproduced as partially as follow for ease of convenience

(c) *Identification of drawings*. Identifying indicia should be provided, and if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet within the top margin. Each drawing sheet submitted after the filing date of an application must be identified as either "Replacement Sheet" or "New Sheet" pursuant to § 1.121(d). If a marked-up copy of any amended drawing figure including annotations indicating the changes made is filed, such marked-up copy must be clearly labeled as "Annotated Sheet" pursuant to § 1.121(d)(1).

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Specification***

3. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

The following guidelines illustrate the preferred layout for the specification of a utility application. These guidelines are suggested for the applicant's use.

### **Arrangement of the Specification**

As provided in 37 CFR 1.77(b), the specification of a utility application should include the following sections in order. Each of the lettered items should appear in upper case, without underlining or bold type, as a section heading. If no text follows the section heading, the phrase "Not Applicable" should follow the section heading:

- (a) TITLE OF THE INVENTION.
- (b) CROSS-REFERENCE TO RELATED APPLICATIONS.
- (c) STATEMENT REGARDING FEDERALLY SPONSORED RESEARCH OR DEVELOPMENT.
- (d) THE NAMES OF THE PARTIES TO A JOINT RESEARCH AGREEMENT.
- (e) INCORPORATION-BY-REFERENCE OF MATERIAL SUBMITTED ON A COMPACT DISC.
- (f) BACKGROUND OF THE INVENTION.
  - (1) Field of the Invention.
  - (2) Description of Related Art including information disclosed under 37 CFR 1.97 and 1.98.
- (g) BRIEF SUMMARY OF THE INVENTION.
- (h) BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWING(S).
- (i) DETAILED DESCRIPTION OF THE INVENTION.
- (j) CLAIM OR CLAIMS (commencing on a separate sheet).
- (k) ABSTRACT OF THE DISCLOSURE (commencing on a separate sheet).
- (l) SEQUENCE LISTING (See MPEP § 2424 and 37 CFR 1.821-1.825. A "Sequence Listing" is required on paper if the application discloses a nucleotide or amino acid sequence as defined in 37 CFR 1.821(a) and if the required "Sequence Listing" is not submitted as an electronic document on compact disc).

***Claim Objections***

4. Claim 13 is objected to because of the following informalities: claim 13 is incomplete because the claim recites “a method as claimed in claim” but does not specify the claim number. For examination purpose, claim 13 will be assumed to depend on claim 1. However, applicant is required to correct the dependency of claim 13 in response to this office action. Appropriate correction is required.

5. Claims 2-15 and 18-44 are objected to because of the following informalities:

Claim 2, line 2, “(150)” should be replaced by “(150, 210, 220)” so as to be consistent with antecedent in claim 1, lines 2-3.

As per claim 3, see claim 2.

As per claim 4, the limitation “in a storage memory 220” is not consistent with recitation in claim 1 that recites “ a memory subsystem (150, 210, 220). The claim should be amended in such a way as to be consistent with antecedent in claim 1. In addition “in memory (210,220)” should be replaced by “said memory subsystem (150, 210, 220)” so as to be consistent with similar recitation in claim 1.

As per claim 5, see claim 2.

As per claim 6, line 4, “in memory (210,220)” should be replaced by “said memory subsystem (150, 210, 220)” so as to be consistent with similar recitation in claim 1.

As per claim 11, see claim 6. In addition, last line, “processor” should be replaced by “processing system” for consistency with antecedent.

As per claim 12, see claim 2.

As per claim 15, see claim 6.

As per claim 18, what does it mean by “**among those**” listed in claim 2”?

Claim 21 recites “combined with the method as claimed in claim 18”. How can claim 21 be combined with claim 18?

Claim 22, line 5, “(150)” should be replaced by “(150, 210, 220)” so as to be consistent with antecedent in line 2.

As per claim 23, see claim 22.

As per claim 24, see claim 22. In addition, claim 23 refers to “220” as “an image data storage memory” while the same component is referred to in claim 24 as “a main image storage memory”. Claim 24 should be amended to make use of antecedent in claim 23.

As per claim 25, line 3, and line 5 “in memory (220)” should be replaced by “said memory subsystem (150, 210, 220)”, respectively, so as to be consistent with similar recitation in claim 22.

Claim 26, line 2, “(150)” should be replaced by “(150, 210, 220)” so as to be consistent with antecedent in claim 22.

Claim 27, lines 2-3, how can “means 190” includes “means 190”? It appears that “the means (190, 200) for dynamically selecting” was intended instead of “the selecting means (190) includes means (means 190)”. In addition such limitation is more consistent with recitation in base claim 22. Please correct.

As per claim 28, "selecting means (190)" should be replaced by "the means (190, 200) for dynamically selecting" so as to be consistent with recitation in claim 22.

As per claim 29, see claim 28.

Claim 31, line 3, please replace "it" by it proper term.

As per claim 32, see claim 27. In addition, last line, "processor" should be replaced by "processing system" for consistency.

Claim 33, "(150)" should be replaced by "(150, 210, 220)" so as to be consistent with antecedent in claim 22.

Claim 36 recites "subsequent processing steps". However it is noted that the claim is an **apparatus claim** and does not include any steps.

Claim 37 recites that "200" is a "programmable processing unit". However, base claim 22 recites that "200" is part of a "means for selecting". Please correct for consistency with antecedent.

As per claim 38, see claim 33.

As per claim 40, what does it mean by "**among those** listed in claim 23"?

Claim 41, line 3, please replace "it" by it proper term.

Claim 43, line 6, "(150)" should be replaced by "(150, 210, 220)" so as to be consistent with antecedent in line 3. In addition, the claim recites "combined with the system as claimed in claim 40". How can the system of claim 43 be combined with the system of claim 40?

As per claim 44, the claim recites “to implement the **features of an apparatus** embodying the invention **as claimed in claim 1**”. However, it is noted that claim 1 is a **method claim** not an apparatus.

Any claim whose base claim is objected is likewise objected.

***Claim Rejections - 35 USC § 112***

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 1-44 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 4, 5, 18, 25, 28, 40 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite in that it fails to point out what is included or excluded by the claim language. Those claims are omnibus type claims.

The term “etc”, recited in claim 1, renders the claim vague and indefinite. Similar comment applies to claims 21, 22, 43.

The limitation “the means (90, 160,192,196,194) for selecting” lacks of proper antecedent basis.

Claim 38, lines 3-4, “said program code” lacks of proper antecedent basis.

Any claim whose base claim is rejected is likewise rejected.

***Allowable Subject Matter***

8. Claims 1-44 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
